

Independent Reproducibility Audit of 12 Published Targets

Re-evaluation under standardized blood-eQTL pipelines exposes high rates of false-positives

Published Myopia MR Target Genes

Audit Verdict

- Reproduced (coloc PP.H4 > 0.8 + replicated)
- ▲ Moderate coloc (PP.H4 0.7-0.8), unreplicated
- Distinct variant / low coloc (PP.H4 <= 0.7)
- ◆ Not evaluable (low blood expression)
